Whitfield County Website

The Whitfield County IT staff launched a new County website over a year ago now. Although it was a team effort, the project was spearheaded by employee Tim Warnix. The goal was to have a much cleaner look and feel, as well easier navigation tools.

Whitfield County is proud to learn that Southern Muse, a website promoting literature and history, recommends Whitfield County as one of the websites worth exploring. Check the site out at <http://www.southernmuse.com/potluck.html>.
